Joanne,

Good afternoon. I understand that you were assisting my colleague, Nicolas, with the renewal of the above export license. You may be aware that AREVA has gone through a company split and subsequent name change. These 'new names' are starting to get released to the public (Framatome was the first). These name changes will need to be updated on the export license currently with the NRC for renewal.

We do not have the final name change yet, but we are expected to be notified next week. If possible, please delay the issuance of the renewed export license until I can notify you of the name changes. The name changes may/will affect the Licensee name, and two of the Intermediate Foreign Consignees.

Thank you,  
Jay
