Subject: [External_Sender] Re: License Application Status and Numbers (PXB218.00) Turkey

Joanne

I am requesting that this application be expedited. Ronan has had this equipment completed for close to 2 years awaiting the import license from Turkey. The import license expires on March 12, 2018. If it allowed to expire our customer has stated that they will need to start the whole process over. To have the equipment through customs prior to March 12th we need to ship around Feb. 22 or 23rd.

Stephen, I want to apologize for this inconvenience but your assistance is critical to us in meeting this deadline.

Thank you,

Craig A. Caris
Radiation Safety Officer

Craig,

The Office of International Programs (OIP) received your request for export license application dated January 17, 2018, for the amount of \$3,200 on January 29, 2018. Mr. Baker has been assigned to review your application for accuracy and conformance to all licensing conditions, regulations, and statutory requirements. Mr. Baker can be reached at **(301) 287-9059** or by email Stephen.Baker@nrc.gov.

License No. PXB218.00 and Docket No. 11006288 has been assigned to your application. Please refer to these numbers when inquiring about the status of your application.

Copies of these documents are available electronically through NRC Agency wide Document Access Management Systems (ADAMS) and can be accessed through the Public Electronic Reading Room (PERR), NRC Homepage.

Please be advised that any substantive changes to your application may require resubmittal of the application, or formal notification of requested changes, and may incur additional expense.

Regards,

Joanne Savoy
