

ENCLOSURE 1

NOTICE OF VIOLATION

Tennessee Valley Authority
Browns Ferry Nuclear Plant

Docket Nos. 50-259, 260 and 296
License Nos. DPR-33, 52 and 68

During an NRC inspection conducted on April 30 - May 3, 1991, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1991), the violation is listed below:

10 CFR, Part 26 "Fitness For Duty Programs," Appendix A, Subpart B "Scientific and Technical Requirements," Paragraph 2.4 specifies;

- (e) Access to Authorized Personnel Only, "No unauthorized personnel shall be permitted in any part of the designated collection site where specimens are collected or stored." and
- (g) Integrity and Identity of Specimens, "The collection site person shall ensure that all personnel belongings such as a purse... remain... outside of the room in which the... urine sample is collected," and "... the individual shall remain in the presence of the collection site person and shall not have access to any... faucet... which could be used to adulterate the urine specimen."

Contrary to the above, on May 2, 1991, the inspectors found the rear door to the designated collection site to be open and unattended thus allowing the potential for unauthorized personnel access during collection and storage of specimens. Additionally, the inspectors noted that individuals do not always remain in the presence of the collection site person, have access to purses left in the hallway, and have access to faucets in two bathrooms at the end of the hallway.

This is a Severity Level IV violation (Supplement VII).

Pursuant to the provisions of 10 CFR 2.201, Tennessee Valley Authority is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and if applicable, a copy to the NRC Resident Inspector, Browns Ferry within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include [for each violation]: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be
