- 2) G. G. Sherwood letter to D. G. Eisenhut, same title, dated April 30, 1981

Dear Mr. Eisenhut:

Reference 1 requested licensees to perform generic and plant specific evaluations of the applicability of the AEOD's report entitled "Safety Concerns Associated with Pipe Breaks in the BWR Scram System." Reference 2 provides the requested response regarding generic applicability. Niagara Mohawk has reviewed the General Electric report which was transmitted to you with reference 2 and while not attesting to the accuracy of the report believes it provides an adequate generic response.

The plant specific evaluation will be provided at a later date.

Sincerely,
