Columbia, Maryland 21045

SUBJECT: LICENSE AMENDMENT 75 FOR 2017 FINANCIAL SURETY UPDATE FOR
AREVA LUCKY MC, WYOMING SITE

Dear: Mr. Mifsud:

By letter dated August 25, 2017, R. Mark Owens, SteelCats LLC, submitted the 2017 financial surety update for the Areva Lucky Mc site in Wyoming (Agencywide Documents Access and Management System (ADAMS) Accession Number ML17262A104).

The U.S. Nuclear Regulatory Commission (NRC) staff has evaluated Areva's 2017 surety update and has concluded that it adequately reflects the decommissioning activities, unit costs, a contingency factor, long-term surveillance fees, and financial assurance mechanism as required by Title 10 of the *Code of Federal Regulations* (CFR) Part 40, Appendix A, Criterion 9, 10, and License Condition 27. The staff's evaluation can be found in the enclosed technical evaluation report. Based on this review, the staff has amended Materials License SUA-672 LC 27 to reflect the updated surety amount. The staff also amended License Condition 62 to reflect the current correct mailing address for correspondence concerning the license. A copy of your amended license is also enclosed.

Please note that, with the issuance of this amended license, AREVA must submit, within a reasonable amount of time, a finalized update to its letter of credit and Schedule A of the Standby Trust Agreement to reflect the new increased surety amount. An environmental assessment was not performed for this action as it is categorically excluded under 10 CFR Part 51.22(c)(10)(i).

In the future please address correspondence regarding the Lucky Mc site to:

Deputy Director, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards, Mailstop T5-A-10, U.S. Nuclear Regulatory Commission, 11545 Rockville Pike, Rockville, MD 20852-2738.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

P. Mifsud
