Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410

Niagara Mohawk is requesting changes to the Administrative Controls portion of Nine Mile Point Unit 2 Technical Specifications in order to make the composition and reporting function of the Safety Review and Audit Board consistent with Nine Mile Point Unit 1. Changes are shown in the attachment.

Justification for these changes is based on instructions given by Mr. Harold Denton to the Nuclear Reactor Regulation contained in a memorandum entitled, "Supplement to NRR Office Letter No. 38, Preparation of Technical Specifications for Second Units at Multi-Unit Sites," dated July 23, 1984. Specifically, this memorandum stated, "The technical specifications for a second unit to be licensed at a multi-unit site shall be virtually identical to those of the previously licensed unit."

Very truly yours,
