Dear Ms. Adensam:

Re: Nine Mile Point Unit 2
Docket No. 50-410

During a meeting with the Nuclear Regulatory Commission Staff on October 15, 1986, it was agreed that Niagara Mohawk would submit an Amendment to the Final Safety Analysis Report shortly after issuance of the license. The Final Safety Analysis Report will be amended within 6 months after receiving our Operating License. As a minimum, this Amendment will incorporate the license information submitted between Amendment 27 and the issuance of the license; and also the information that we have committed to resolve the Reports submitted in conformance with 10 CFR 50.55(e) related to the Main Steam Isolation Valves.

We will continue to keep you informed of further development of our plans and schedule for this Amendment.

Very truly yours,

T. E. Lempges
