Dear Mr. Mangan:

Subject: 10 CFR 50.55 Quality Assurance Program Description Change Review

Reference: Letter NMP2L-0816 dated August 15, 1986 C. V. Mangan to T. E. Murley transmitting changes to the Nine Mile Point Unit 2 Preliminary Safety Analysis Report Quality Assurance Program.

We have received the referenced letter transmitting the Revision dated July 21, 1986 of the Preliminary Safety Analysis Report Quality Assurance Program. Region I staff has reviewed this submittal and found the changes acceptable as they do not reduce your previous commitments to quality assurance. This revision contains changes to your present Quality Assurance organizational structure, adds a provision for your Fire Protection Program and describes the qualification and experience level of your Quality Assurance Supervisory personnel.

The effectiveness of your QA Program implementation will continue to be the subject of routine regional inspections.

If you have any questions concerning the above, please call R. W. Winters on (215) 337-5244.

Sincerely,

Original Signed By:

~~Lee H. Bettenhausen~~
