Re: Nine Mile Point Unit #1  
Docket No. 50-220  
DPR-63

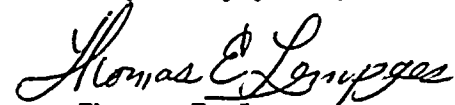

Dear Dr. Murley:

In conformance with Amendment 66, Section 6.9.1 of the Nine Mile Point Nuclear Station Unit #1 Technical Specifications, we are enclosing the Semi-Annual Radioactive Effluent Release Report for the period January 1, 1986 through June 30, 1986. Included in this report is (a) a summary of liquid, gaseous and solid effluents released from the station during the reporting period (Tables 1-3) and (b) an explanation as to the cause and corrective actions regarding inoperability of the Station's Liquid Discharge Effluent Monitors (Table 4).

The general format used for the effluent data is outlined in Appendix B of Regulatory Guide 1.21, Revision 1. Dose assessments used to calculate percent of technical specification limits were made in accordance with Revision 1 to the NMP-1 Offsite Dose Calculation Manual. Distribution is in accordance with Regulatory Guide 10.1, 10 CFR 50.36a (a)(2) and the Technical Specifications.

If you have any questions concerning the attached report, please contact John J. Blasiak, Chemistry Unit Supervisor, at Nine Mile Point Unit 1 (315) 349-2566.

Very truly yours,

Thomas E. Lempges  
Vice President  
Nuclear Generation
