Re: Nine Mile Point Unit 2
Docket No. 50-410
NPF-69

Gentlemen:

On June 26, 1990, Niagara Mohawk submitted its response to Generic Letter 90-04 concerning status of implementation of Generic Safety Issue (GSI) requirements (NMPIL 0511). In our June 26, 1990 letter we provided a status of "complete" for Nine Mile Point Unit 2 for GSI No. 75, Item 2.2.2 "Vendor Interface for Safety-Related Components". Generic Letter 90-03, which discusses the Commission's guidelines on resolving Item 2.2.2, is currently being evaluated by Niagara Mohawk. Therefore, a status of "evaluating" more accurately reflects Nine Mile Point Unit 2's position at this time concerning Item 2.2.2.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

C. D. Terry
Vice President
Nuclear Engineering and Licensing
