Region I Office
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Dr. Murley:

Re: Nuclear Organization and
Notification Changes

This is to confirm the information I conveyed to you by phone last week concerning organizational changes at Niagara Mohawk Power Corporation (NM). Earlier this year NM organized a new management team at which time several key members of Management Analysis Company (MAC) were integrated into the Nine Mile Nuclear Station Unit #2 (NM-2) organization. MAC's experience in the nuclear field was vital in NM's plans to manage the changeover from bulk construction to the more complex instrumentation and preoperational testing phase of the nuclear plant.

As the Company looks ahead to improving overall performance in the operation of Nine Mile I and construction and operation of Nine Mile II, it was determined that additional specialized expertise was needed. Two senior level MAC executives, B. G. Hooten and J. A. Perry, are being employed at the top level of Niagara Mohawk, assuming the functions formerly performed by G. K. Rhode, Senior Vice President and Donald P. Dise, Vice President - Quality Assurance, respectively. Messrs. Hooten and Perry will report directly to the undersigned.

It is requested that any correspondence previously addressed to them now be sent to Messrs. Hooten and Perry, as appropriate, to the following addresses:

Mr. B. G. Hooten
Executive Director, Nuclear Operations
Niagara Mohawk Power Corporation
300 Erie Boulevard West
Syracuse, New York 13202

and

1. The first part of the document discusses the general situation of the country and the role of the government. It mentions the need for a comprehensive plan to address the economic and social challenges facing the nation.

2. THE ECONOMIC SITUATION

The economy has experienced significant fluctuations in recent years, with a notable decline in industrial production and a corresponding increase in unemployment.

It is essential to implement measures that will stimulate economic growth and create new job opportunities for the workforce.

3. SOCIAL POLICY

The government is committed to improving the social conditions of the population, particularly in the areas of education and healthcare. This requires a sustained effort and adequate funding.
