SUBJECT: NRC INSPECTION REPORT NOS. 50-259/95-65, 50-260/95-65, AND  
50-296/95-65

Dear Mr. Kingsley:

This refers to the inspection conducted on November 28 - December 1, 1995, at the Browns Ferry facility. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identifies activities that violated NRC requirements that will not be subject to enforcement action because the licensee's efforts in identifying and/or correcting the violation meet the criteria specified in Section VII.B. of the Enforcement Policy.

In accordance with 10 CFR 2.790, of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room (PDR).

Should you have any questions concerning this letter, please contact us.

Sincerely,

(Original signed by T. Decker)
