Emergency Preparedness
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards

SUBJECT: Final Exercise Report for the April 29, 1987, Exercise
of Offsite Radiological Emergency Preparedness Plans
for the Susquehanna Steam Electric Station

Attached are two copies of the final exercise report for the April 29, 1987, exercise of the offsite radiological emergency preparedness plans site-specific to the Susquehanna Steam Electric Station. This final exercise report was prepared by the Region III office staff of the Federal Emergency Management Agency.

There were no deficiencies identified during this exercise. The outstanding deficiencies identified at the last exercise concerning non-participation of Fishing Creek Township and the miscommunications at the Columbia County Emergency Operations Center were corrected. A schedule of corrective actions is included in the exercise report which addresses the areas requiring corrective actions.

Based on the results of the exercise, the offsite radiological emergency preparedness remains adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of an accident at the Susquehanna Steam Electric Station.

If you should have any questions, please contact me at 646-2871.
