Dear Dr. Butler:

In the above referenced letters we committed to make modifications related to fire barrier upgrades, HVAC fan switches, CT secondaries and raceway wrapping. The purpose of this letter is to inform you that these modifications have been completed for Susquehanna SES Unit 1 and 2 except as follows:

Seven raceway (F1M327, F1K992, A1P019, C1P023, C1K157, E1K954, F1K017) on Susquehanna SES Unit 1 and one raceway (D2P006) on Susquehanna SES Unit 2 which were committed to be wrapped were evaluated against both our current analysis and our current licensing basis and were determined not to require wrapping.

If you have any questions, please contact C.T. Coddington.

Very truly yours,

H. W. Keiser

Handwritten marks and symbols in the top right corner, including a cluster of dots and some faint lines.

The main body of the page contains extremely faint and illegible text, appearing as scattered black specks and light gray smudges across the white background. The text is too light to be read and is distributed across the central and lower portions of the page.
