Docket Nos. 50-387
and 50-388

Dear Mr. Russell:

The purpose of this letter is to advise you of PP&L's position regarding the completion and implementation of the NRC-requested actions specified in Supplement 1 to NRC Bulletin 88-07, "Power Oscillations in Boiling Water Reactors."

Attached to this letter is a copy of a letter (BWROG-8905, D.N. Grace to A. Thadani, dated January 26, 1989) which provides comments and clarifications of the subject Supplement from the BWR Owners' Group. Please be advised that PP&L has assured, as clarified by the attached letter, that all actions required by the Supplement have been completed and implemented at Susquehanna SES Units 1 and 2. Please note however, that in some cases PP&L has taken action that follows the NRC's intent but is actually more conservative than their requested actions.

We trust you will find this response acceptable; any questions should be directed to Mr. R.R. Sgarro at (215) 770-7916.

Very truly yours,

H. W. Keiser
