WASHINGTON, D. C. 20555

NOVEMBER 20 1979

Docket Nos. 50-285, 50-255, 50-336
and 50-317/318

MEMORANDUM FOR: Darrell G. Eisenhut, Acting Director
Division of Operating Reactors

FROM: S. B. Hosford, Technical Assistant for
Engineering Programs, DOR

THRU: Larry C. Shao, Acting Assistant Director for
Engineering Programs, DOR

SUBJECT: SUMMARY OF MEETING WITH THE COMBUSTION ENGINEERING OWNERS
GROUP, OCTOBER 25, 1979, ON ASYMMETRIC LOCA LOADS

The Combustion Engineering Owners Group met with the staff on October 25, 1979, to discuss their progress and schedule for resolution of the Asymmetric LOCA Loads Evaluation. The CE Owners informed the staff that they anticipated an additional slip (See Meeting Summary with CE Owners June 28, 1979) in their schedule. The new schedule projects the final plant evaluations to be completed in September 1979.

The staff has reviewed the Combustion Engineering Owners progress to date and their projected schedule. The staff recommends that the following stipulations be met by each licensee:

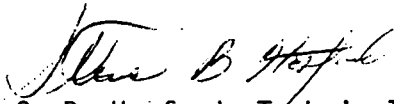

1. A report should be submitted on each plant docket on or before February 15, 1980. This is consistent with the two year requirement, from receipt of our letter, to licensees (January 25, 1978).
2. This report should include as a minimum the following: evaluation of the reactor vessel supports; evaluation of the component supports; evaluation of the attached ECCS piping; and a statement addressing the justification for continued operation pending completion of the required evaluation.
