OPERATOR/SENIOR OPERATOR TRAINING PROGRAMS: SUBMITTAL
FOR REVIEW

NRC letter dated March 28, 1980, detailed requirements applicable to reactor operator/senior operator training and requalification programs. This letter requested that revised programs be submitted for NRC review.

Attached are revised operator/senior operator training and requalification programs applicable to our Big Rock Point and Palisades Plants. (These programs will also be applicable to our Midland Plant and will be incorporated into the Midland FSAR by separate correspondence). To preclude disruption of currently ongoing training, these programs will be implemented for candidates commencing training after NRC approval. The requalification programs will be implemented with the next annual requalification examinations.
