Mr. David P. Hoffman  
Nuclear Licensing Administrator

Dear Mr. Hoffman:

SUBJECT: SUSCEPTIBILITY OF SAFETY-RELATED EQUIPMENT/SYSTEMS  
TO FLOODING OF NON-CATEGORY I (SEISMIC) SYSTEMS  
(PALISADES)

On April 30, 1981, I sent you a letter requesting the status of unresolved issues for this generic multiplant activity (B-11) on Palisades and tied B-11 to SEP Topic VI-7.D.

My June 19, 1981 letter separated B-11 from Topic VI-7.D and indicated that Topic VI-7.D was completed.

However, we must still resolve B-11 because of the potential for flooding of the auxiliary feedwater pumps and a diesel generator. Accordingly, you are requested to provide responses to my April 30, 1981 letter.

Sincerely,

*for* *Thomas V. Wambach*
