**Subject:** SOURCE RECOVERY PROCEDURES PERFORMED BY LICENSEE? DBI, Inc. License # 15-29301-02; Docket: 030-38754  
**Importance:** High

Good Morning Matt: Per our telephone conversation earlier this morning, please note that Condition 15.H. which added source recovery procedures to your Operating and Emergency Procedures (O&E procedures) and Condition 15.J. which updated your O&E Procedures are both "tied-down" in your current license, corrected copy Amendment No. 2 to License No. 15-29301-02, Docket No. 030-38754.

Please confirm that you (your radiographic personnel with appropriate training and experience) will conduct source recovery. If so, please so state in a signed and dated letter on the licensee's letterhead. Upon receipt of this confirmation, I will conduct a technical review of your updated O&E procedures dated March 21, 2017 using the licensing guidance in NUREG-1556, Vol. 2, Rev. 1, dated February 2016, specifically 8.10.9.12 Source Recovery (Retrieval). Upon satisfactory review, I will issue a corrected copy to your license, to specifically approve you to perform source recovery activities by license condition.

Thank you in advance for your response, understanding and assistance in this matter.

Warmest Regards,

Attention: Jackie Cook

Jackie,

DBI Inc. would like to confirm that we still plan to (radiographic personnel with appropriate training and experience) conduct source recovery in accordance with our O&E procedures if needed.

If you need any other information please feel free to call me at (913) 238-2429.

Thanks,

Matt Slaymaker
