RE: Response to the Apparent Violation; RAM License No. 34-29200-01MD, Cardinal Health, Hartford, CT and Princeton, WV concerning remodel without approval.

Dear Mr. Warren:

This letter provides additional information concerning our amendment request of November 6, 2017 concerning the remodel of our Hartford and Princeton facilities. This amendment request was a repeat of a request made in 2014, but no formal response from your department was obtained prior to construction.

To prevent recurrence all remodels are tracked to ensure future compliance. Detailed tracking includes dates in which facilities diagrams are approved via Q&R as well as when amendment is submitted and final approval given by the NRC. When approval is given, vendors are contacted to initiate construction. No movement is allowed until written approval from the NRC is received.

Should you have any further questions, please contact me at 614-757-9586.

Sincerely,

Glenn P. Sullivan  
Corporate Radiation Safety Officer  
Director, Health Physics  
Quality and Regulatory Department  
Nuclear Pharmacy Services
