Dear Mr. Vandewalle:

This is in response to your letter of February 18, 1983, which provided Consumers Power Company's responses to the Regulatory Effectiveness Review Report dated December 9, 1982. As the result of Region III's safeguards inspection conducted on March 28 to April 1, 1983 by J. Belanger and G. Christoffer, the following determinations have been made:

- 1) An implementation schedule for the resolution of Item #1, Perimeter Detection System needs to be submitted. The schedule should include (i) the dates when testing of detection systems will be initiated and terminated, (ii) the timeframe for deciding on what system to use, and (iii) the period necessary for installation, operational testing, and final system acceptance.
- 2) Item #2, Protected Area Entry Search, will be reviewed by Region III inspectors after the new administration and warehouse buildings are completed in July 1983. At this time, we will verify whether or not additional controls are needed to preclude the possibility of contraband being introduced into the protected area.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

The enclosures to your February 18, 1983 letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are being withheld from public disclosure.

Sincerely,

Original signed by
Thomas V. Wambach
