On February 13, 2018, the staff held a Category 2 public meeting with the Nuclear Energy Institute (NEI) and industry stakeholders on Fire Probabilistic Risk Assessment (FPRA) Frequently Asked Questions (FAQs). Over the course of the meeting, discussions were held on the priorities and proposed schedule for FAQs; current status of existing FAQs; new FAQs; and the fire research plan. In addition, NEI presented its proposal regarding refinement of the credit allowed for Very Early Warning Detection Systems in NUREG-2180 that includes a fire database review, review of operating experience from a pilot plant, an expert elicitation, review of operating experience from other plants, and interim and final reports. NEI indicated that a final report could be completed by the 1st quarter of 2019. The staff provided comments on this approach, including the ambitious schedule proposed by NEI for this effort. A number of other action items were established at the end of the meeting that included the NRC issuing close-out memos for two FAQs, and NEI providing responses to staff comments on several FAQs.
