ATTN: License Amendment Request

The Illinois Emergency Management Agency has completed its initial review of a draft copy of the License Amendment Request (LAR), "Changes to Emergency Plan Staffing." IEMA appreciates the opportunity to comment on this document. The objective of our review was to identify any potential impacts to off-site emergency preparedness and response. This review focused on those changes that have the potential to affect the implementation of the Illinois Plan for Radiological Accidents (IPRA) and in turn, the health and safety of the public.

Based upon our review of this document and the proposed changes contained therein, I see no basis for denial of approval. IEMA therefore concurs and recommends approval of the above LAR.

Sincerely,

A handwritten signature in black ink, appearing to read "Ken Evans".

Subject: [EXTERNAL] Re: Quad Cities License Amendment Request

Mike,

Thank you for providing the State of Iowa the opportunity to review the Licence Amendment Request for changes in plan staffing requirements in support of the Quad Cities Generating Station. The State of Iowa has no comments or concerns.

Thanks, Kathy

Kathy,

Exelon is working on a License Amendment to revise our Emergency Response Organization to align with the anticipated NRC NUREG 0654 Rev 2 guidance. We have drafted a LAR and would like the State of Iowa to review and comment. These changes will not impact how we communicate with the State of Iowa or the Iowa Counties.

We would like to get a response from the State of Iowa (letter or email) stating that you have reviewed the LAR and any comments have been addressed.

I have attached the draft LAR for your review.

If you have any questions on this topic, you may contact me and I can engage our EP Programs Group to resolve any concerns or comments.

Thank You.

Michael T. Muth
