NUCLEAR REGULATORY COMMISSION

In the Matter of

NORTHWEST MEDICAL ISOTOPES, LLC

(Medical Radioisotope Production Facility)

Docket No. 50-609-CP

ORDER

**(Adopting Proposed Transcript Corrections, Admitting Post-Hearing Exhibits,
and Closing the Record of the Proceeding)**

The Commission held an evidentiary hearing on the captioned proceeding at its Rockville, Maryland headquarters on January 23, 2018. Proposed transcript corrections have been provided in accordance with the deadline previously set. The transcript corrections identified in Appendix A to this order are adopted.

In addition, the parties have submitted responses to the Commission's post-hearing questions. As directed, the responses were filed as new exhibits using the previously established numbering scheme, and neither party objects to their admission. Therefore, exhibits NWMI-012 and NRC-014 are admitted into the evidentiary record.

The adoption of transcript corrections and the admission into evidence of the new exhibits completes the procedural activities that remained pending at the conclusion of the hearing. The record of this proceeding is therefore closed, effective as of the date of this order.

This order is issued pursuant to my authority under 10 C.F.R. § 2.346(a) and (j).

IT IS SO ORDERED.
