Subject: [External_Sender] New RIS 2017-XX Effective Date

Dave/Wendell,

When RIS 2017-XX is issued and communicated to industry (via letter to licensees I assume), do you plan to specify an effective date for its use? For example, if the RIS was approved on January 1st, 2018, would the NRC specify a particular date, say March 31st, 2018, where industry would be expected to begin complying with the new guidance?

We are beginning to draft our training plan to educate our fleet on use of the new RIS. If there will be a specific date when the new guidance will be expected be complied with, we will tailor our training schedule such that our folks are trained prior to that date.

Neil Archambo, PE
