Wendell, we have made a comment that refers to our "plant level" position from the last meeting. It is tied to a discussion about malfunction results in step 3 on page 5 of the attachment.

Yes, we will have our comments in by the deadline. NEI management is reviewing the cover letter, and it should be on it's way after that.

Hi Vic,

Just checking in regarding a few items before you guys complete your work:

- Regarding the discussion in the August 2<sup>nd</sup> workshop, NEI expressed concerns that you would prefer to Criterion VI discussion to be settled or clarified in the RIS supplement. We want to encourage you to provide that as a formal public comment in the package you plan to submit. We'd also encourage you to provide any other comments you had from the public meetings into your formal package as well.
- Do you believe you'll be able to submit your comments package prior to the upcoming deadline?

Wendell

We received a lot of good input. The majority of the comments are editorial/wording/clarification/format/descriptive information suggestions, or on the flowchart and tables.

I will send you a better summary tomorrow am
