The licensee shall maintain an NRC-approved financial surety arrangement adequate to cover the estimated decommissioning and reclamation costs consistent with 10 CFR 40, Appendix A, Criteria 9 and 10. Costs will include work undertaken by a third party for the decommissioning and decontamination of the mill and mill site for the reclamation of any tailings or waste disposal areas, for ground-water restoration as warranted, and for the long-term surveillance fee.

When the NRC approves a revised decommissioning and reclamation plan, the licensee shall submit for NRC review and approval, a proposed revision to the financial surety arrangement if estimated costs of

the new plan exceed the amount of the existing surety. The licensee shall have a revised surety approved by the NRC in effect not later than three (3) months after the NRC approves a revised plan.

10 CFR Part 40, Appendix A, Criteria 9 and 10 require that annual updates to the surety amount be submitted to the NRC at least 3 months prior to December 30 each year. If NRC approval of a proposed revision to the surety is not completed thirty (30) days prior to the expiration date of the existing surety arrangement, the licensee shall extend the existing surety arrangement for one (1) year.

Annual updates or revisions shall include a breakdown of the cost estimates with adjustments for inflation and the basis for the cost estimates. The basis for the cost estimate is the NRC approved reclamation/decommissioning plan or NRC-approved revisions to the plan. The licensee shall maintain a contingency fee of at least fifteen (15) percent of the total cost estimate and the licensee must identify any changes in the engineering plans, or to activities performed at the site, and to any conditions that affect estimated costs for site closure.

If the surety is authorized to be held by the State of Wyoming, the licensee shall provide the NRC with all surety-related correspondence submitted to the State of Wyoming, a copy of the Wyoming's surety review, and the final Wyoming-approved surety arrangement. The licensee shall also ensure that if the surety is held by the State of Wyoming, the surety expressly identifies the NRC's portion of the surety.

Western Nuclear's NRC-approved financial assurance arrangement includes a surety, the surety bond issued by Westchester Fire and Insurance Company, and a standby trust agreement that is accessible to the NRC. The total NRC portion of the financial assurance amount shall be no less than \$1,166,600. 34. In order to ensure that no disturbance of cultural resources occurs in the future, the licensee shall have an archeological and historical artifact survey of areas of its property, not previously surveyed, performed prior to their disturbance, including borrow areas to be used for reclamation cover. These surveys must be submitted to the NRC and no such disturbance shall occur until the licensee has received authorization from the NRC to proceed.

The licensee is authorized to excavate material from the proposed reclamation borrow areas as designated in the licensee's approved reclamation plan, provided that protection of the cultural resources is managed in accordance with statements and representation contained in the licensee's letter dated March 30, 1992.

[Applicable Amendment: 71]

35. Before engaging in any project-related activity not evaluated by the NRC, the licensee shall prepare and record an environmental evaluation of such activity. When the evaluation indicates such activity may result in a significant adverse environmental impact that was not evaluated, or an impact greater than that evaluated in the environmental statement, the licensee shall provide a written evaluation of such activity and obtain prior approval of the NRC for the activity.
