Gentlemen:

This confirms the discussion between Messrs. B. Burgess and K. Berry of our respective staffs to have an enforcement conference at 2:00 p.m. (CST) on Tuesday, March 7, 1989, at the Region III Office in Glen Ellyn, Illinois. The purpose of this enforcement conference is to discuss the safety significance of the installation of a modification performed on various Control Room penetrations which may have rendered the Control Room Ventilation System incapable of meeting its intended safety function during a design basis accident.

We will gladly discuss any questions you may have concerning this matter.

Sincerely,
