

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 26, 2018

Technical Specifications Task Force  
11921 Rockville Pike, Suite 100  
Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TSTF-566, "REVISE ACTIONS FOR INOPERABLE RHR SHUTDOWN COOLING SUBSYSTEMS" (EPID L-2018-PMP-0001)

Dear Members of the Technical Specifications Task Force:

By letter dated January 19, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18019B187), you submitted to the U.S. Nuclear Regulatory Commission (NRC) a request to incorporate Traveler TSTF-566, "Revise Actions for Inoperable RHR Shutdown Cooling Subsystems," into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 420 staff hours including project management time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	May 4, 2018
Issue Draft Safety Evaluation	October 16, 2018
Issue Final Safety Evaluation	January 18, 2019

The dates are provided for draft and final safety evaluations (SEs) have been expedited at your request. In order to meet these dates the TSTF will need to respond to RAIs in 30 days and provide comments to the draft SE in 15 days. If you have any questions, please contact me at (301) 415-1774 or via e-mail to [Michelle.Honcharik@nrc.gov](mailto:Michelle.Honcharik@nrc.gov).

Sincerely,

**R/A**

Michelle C. Honcharik, Senior Project Manager  
Technical Specifications Branch  
Division of Safety Systems  
Office of Nuclear Reactor Regulation
