KING OF PRUSSIA, PA 19406-2713

February 28, 2018

Mr. Peter P. Sena, III  
President and Chief Nuclear Officer  
PSEG Nuclear LLC - N09  
P.O. Box 236  
Hancocks Bridge, NJ 08038

**SUBJECT:** ANNUAL ASSESSMENT LETTER FOR HOPE CREEK GENERATING  
STATION UNIT 1 (REPORTS 05000354/2017006, 05000354/2017402, AND  
05000354/2017501)

Dear Mr. Sena:

The NRC has completed its end-of-cycle performance assessment of Hope Creek Generating Station Unit 1 (Hope Creek), reviewing performance indicators (PIs), inspection results, and enforcement actions from January 1, 2017 through December 31, 2017. This letter informs you of the NRC's assessment of your facility during this period and its plans for future inspections at your facility. The NRC concluded that overall performance at your facility preserved public health and safety.

The NRC determined the performance at Hope Creek during the most recent quarter was within the Licensee Response Column (Column 1) of the NRC's Reactor Oversight Process (ROP) Action Matrix in Inspection Manual Chapter 0305, "Operating Reactor Assessment Program," because all inspection findings had very low safety significance (i.e., Green), and all PIs were within the expected range (i.e., Green). Therefore, the NRC plans to conduct ROP baseline inspections at Hope Creek.

As of August 30, 2017, Hope Creek transitioned to the Licensee Response Column after the successful completion of a supplemental inspection in accordance with Inspection Procedure 95001, "Supplemental Inspection for One or Two White Inputs in a Strategic Performance Area," on August 11, 2017. The results of this inspection are documented in NRC Supplemental Inspection Report 05000354/2017011 (ML17242A220) dated August 30, 2017.

The enclosed inspection plan lists the inspections scheduled through December 31, 2019. This updated inspection plan now includes planned security inspections which were formerly transmitted under separate correspondence. The NRC provides the inspection plan to allow for the resolution of any scheduling conflicts and personnel availability issues. Routine inspections performed by resident inspectors are not included in the inspection plan. The inspections listed during the last twelve months of the inspection plan are tentative and may be revised. The NRC will contact you as soon as possible to discuss changes to the inspection plan should circumstances warrant any changes.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room)

Please contact Fred Bower at (610) 337-5200 with any questions you have regarding this letter.

Sincerely,

**/RA/**

David L. Pelton, Acting Director  
Division of Reactor Projects
