Dear Mr. Musser:

As I committed in our June 11 telephone conversation regarding the Palisades Pressurized Thermal Shock (PTS) issue, I have enclosed the relevant PTS related correspondence between Consumers Power Company (CPCo) and the Nuclear Regulatory Commission (NRC) for the period December 1991 to the present. Due to the large amount of paper, I did not have my staff reproduce all correspondence and in some cases the enclosures to selected correspondence. All correspondence between NRC and CPCo can be retrieved through the Local Public Document Room located at:

Van Wylen Library
ATTN: Reference Librarian
Hope College
Holland, MI 49423

Information including the technical synopsis of the PTS issue, the chronology of how the PTS issue evolved at Palisades and the current NRC plans to resolve this concern are contained in the enclosures. I trust you will find this information responsive to your concerns. If there is any question, please contact me at 301-504-1335.

Sincerely,

Original signed by

John A. Zwolinski, Assistant Director
for Region III Reactors
Division of Reactor Projects - III/IV/V
Office of Nuclear Reactor Regulation
