**Re: Molecular NeuroImaging, LLC (Mall Control No. 601955)**

Dear Ms. Nguyen:

This correspondence addresses the final submission with respect to the above-referenced indirect license transfer request on behalf of Molecular NeuroImaging, LLC ("MN"), a wholly owned subsidiary of InviCRO, LLC ("InviCRO"), to Konica Minolta IC, Inc. (individually, "KMIC"; collectively, the "Licensee"), which was approved by the Nuclear Regulatory Commission (the "NRC" or the "Commission") by correspondence, dated November 6, 2017.

On January 8, 2018, we communicated to Commission staff that we would provide, under the joint signatures of InviCRO and KMIC, the following written confirmations:

- The above-referenced transaction occurred on November 10, 2017. Specifically, the membership interests of InviCRO, as parent to MN, were sold to KMIC on November 10, 2017. As a consequence, MN and InviCRO are now indirect subsidiaries of KMIC.
- That the transaction resulted in no change to Molecular NeuroImaging, LLC's name, to the licensed materials (the "Licensed Materials"), to the persons using the Licensed Materials, to the location or use of the Licensed Materials, or to the persons responsible for the radiation safety program and compliance with NRC regulations applicable to the Licensed Materials.
- That the terms of the transaction are consistent with the information and findings documented in the Safety Evaluation Report ("SER"), including the parties' commitments in the "Safety and Security Review" section of the SER.

Finally, we understand and appreciate that the Commission staff will return to me or otherwise confirm appropriate destruction of our December 14, 2017 correspondence requesting protection against disclosure of certain confidential commercial, financial, trade secret and personnel information contained within the redacted Membership Interest Purchase Agreement also provided.

601955  
NMSS/RG1 MATERIALS-002
