<u>Recommendation 2:</u>	Develop and implement a formal, transparent process for annually determining which defense nuclear sites will have resident inspectors, along with the staffing of those sites.
Agency Response Dated February 23, 2018:	The technical staff has input an item in the 2018 Work Plan entitled "Develop Resident Inspector Staffing Analysis/Plan" that will include designing the "formal, transparent process for annually assessing which defense nuclear sites should have resident inspectors, and the desired level of staffing for each site." The recommendation will be closed when OIG verifies that DNFSB has implemented a formal, transparent process for annually determining which defense nuclear sites should have resident inspectors, and the desired level of staffing for each site.
