

**Information for the Transfer of Control:**

NRC Region: 1

Contact: Dennis Lawyer

Telephone: 610-337-5000

The site for the transfer of control is:

M&G Polymers USA, LLC  
27610 Huntington Road  
PO Box 8  
Apple Grove WV 25502

*Br. 2*  
*03033015*

Material License Number: 47-25227-01  
Expiration: June 30, 2023  
Docket No. 030-33015

RSO: Rocky Sturgeon      Phone: 304-576-4664

M&G Polymers filed bankruptcy for this location on October 24, 2017. At that time we seized operations at this facility. We did a controlled shutdown. Once that was completed, it was decided that a core group of staff employees would remain on site for preservation. I (Rocky Sturgeon) was one of these employees. Once we seized operation, I physically turned all of our source holders to the "Off" position and they are still in that position. In January, 2018, I did a radiation survey of all the source holders in the "Off" position and recorded the results. No sources have been removed from their locations. I do have source holders in a storage location, and they have not been moved or relocated. They are still on plant site.

The site has been sold to a new company. The courts have approved the sale and are in the process of finalizing (closing) on the purchase.

The new company is Far Eastern New Century (FENC) headquartered in Taiwan. This will be their first presence in the USA. Until the sale is finalized, I will not be able to supply you with the company name, business license or other pertinent information. As soon as the purchase is closed, all the information that is needed for the transfer will be provided.

REC'D IN LAT 2-12-18

*602415*  
NMSS/RGN1 MATERIALS-002

I will give you all the information that I know as of February 24, 2018 on the nine items in Appendix E

1. The new owners will assume all assets at this location. We don't have the new name yet. The address should still be the same (27610 Huntington Road, PO Box 8, Apple Grove, WV, 25502). The local contact person will be Rocky Sturgeon (RSO); telephone number 304-576-4664. The local organization will not change. The same management team will still be in place I see this is as a name change. The facility will make the same product and the sources will be used for the same purpose.
2. The personnel and their duties will remain the same as before.
3. There will be no changes in the location, facilities, equipment and safety program. We will use the sources as we have always done in the past. The location of these sources will not and has not changed. We use these sources for continuous level indication and point level detection. No procedures will be changed.
4. The facility at this location produces PET resins. Most all of the sources are mounted to reactors, tanks and silos. All of these source holders are turned "OFF" and we are not producing any material. The plant is in an idle state. There will be no changes to the safety program. The current program has the shutter test performed every six months. This will continue under the new owners. The wipe test has been performed every three years per the manufacture and this practice will continue under the new owners. All records are kept in the RSO's office and will continue to be kept there under the owners.
5. We are not and will not be decommissioning this location. I cannot give you any of the financial documents for the new owners as of yet.
6. No decommissioning will be going on at this location.
7. Will supply you information after the closing.
8. Will supply you information after the closing.
9. This site is not a fuel cycle facility.

I have attached a copy of the source inventory.

Rocky Sturgeon  
RSO
