

UNITED STATES NUCLEAR REGULATORY COMMISSIONCONSUMERS POWER COMPANYDOCKET NO. 50-255PALISADES PLANTNOTICE OF WITHDRAWAL OF APPLICATION FOR
AMENDMENT TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Consumers Power Company (the licensee) to withdraw its June 14, 1991 (as supplemented July 17, 1991, and January 10, 1992), application for a proposed amendment to Facility Operating License No. DPR-20 for the Palisades Plant, located in Van Buren County, Michigan.

The proposed amendment would have modified the facility operating license to allow an exception to the Palisades Final Safety Analysis Report requirement to perform the maximum hypothetical accident analysis in accordance with the Standard Review Plan, Section 15.6.5, Appendix B, Subsection II(1). The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on September 18, 1991 (56 FR 47233). However, by letter dated October 9, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 14, 1991, as supplemented July 17, 1991, and January 10, 1992, and the licensee's letter dated October 9, 1995, which withdrew the application for license amendment. The issue was addressed in a related

safety evaluation dated January 9, 1995. Consumers Power Company will submit a revised maximum hypothetical accident analysis by January 1996. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Van Wylen Library, Hope College, Holland, Michigan 49423.

Dated at Rockville, Maryland, this 1st day of December 1995.
