Hello Ms. Gallagher,

I live in Long Beach, CA about 50 miles north of San Onofre and am really worried about the American Fukushima that will undoubtedly happen if SCE proceeds and gets away w/burying 3.5 million lbs. of nuclear waste in vessels designed to last only 25 yrs..

Why/how is this even being considered?! This needs to be stopped! Pls. hear our voices and do something about this.

We are all in this world together and we need to do all we can to stop destroying it!

Thank you for your time and have a great day!
