Re: Notification of Intent to Permanently Cease Principal Activities at Research Park
Development Building - License No. 24-00513-32, Docket No 030-02278

To whom it may concern:

As required in 10 CFR 30.36(d), we are officially notifying the US NRC that the University of Missouri has decided to permanently cease principal activities at Research Park Development Building (RPDB), 1306 Research Park Drive, Columbia, MO, 65211. The RPDB was formerly the home of MU Environmental Health & Safety. It was built in 1965 and the Radiation Safety section has occupied the building since 1973 with the rest of the Environmental Health & Safety moving to the RPDB in the 1980's. Chase Environmental will be performing the decommissioning activities and will be submitting a reciprocity request in the coming weeks.

If you have any questions, please do not hesitate to contact me at (573) 882-7018.

Sincerely,

Felicity Beckfield, MS, CHP
Radiation Safety Officer

cc: Todd Houts
