NRC Licenses Division

Re: License Number 21-18491-01

Dear Sir:

Gosling Czubak Engineering at 1280 Business Park Drive, Traverse City, Michigan, NRC License Number 21-18491-01, would like to amend our license as follows:

- Line 8 – Maximum Amount that Licensee may Possess at any one Time under License –
 - We would like to change A from 7 sources not to exceed 9 millicuries to 11 sources not to exceed 9 millicuries.
 - Change B from 7 sources not to exceed 44 millicuries to 11 sources not to exceed 44 millicuries.

We would like to expedite this request due to Troxler 3440 Gauge by the end of March 2018. We appreciate your cooperation.

Please contact me with any questions at 231-384-2989.

Sincerely,

Bernie Jacobson

Laura,

Thank you for your help today. It was much appreciated. Like I said I would like to get this as soon as possible. We have been in contact with the guy we want to buy the Troxler's from and he would like to get rid of them as soon as possible.

Thank You

Bernie Jacobson

Hello Bernie,

Thank you for contacting me regarding your proposed license amendment request. Per our conversation today, you are correct that increasing the number of portable gauges on your license will not result in any fees associated with the amendment or in an increase in your annual fee.

Please feel free to submit your amendment request to me via email, and ensure that your response is both signed and dated. You can reach me directly at 630-829-9712 if you have any questions.

Thank you,
Laura
