(a) The title of this project is: **Oberthur Personal Identity Verification (PIV) Cards**

(b) Background:

The U.S. Nuclear Regulatory Commission’s (NRC) uses Oberthur PIV cards for access to NRC offices and log in to the NRC computer network. All employees and contractors are required to display their PIV card so that it is visible to Security staff at all times. The card restricts access to separate parts of NRC buildings based on the person’s need and security level.

The card also offers a simple option for safe log in to NRC’s computer network. The card is inserted into a reader connected to a computer for verification and access to only those domains that the person is cleared for.

(c) Objective:

The objective of this acquisition is for the U.S. Nuclear Regulatory Commission (NRC) to procure Oberthur Personal Identity Verification (PIV) Cards.
