LICENSE NO. 42-32507-01/DOCKET NO. 030-36565

Region III issued Amendment No. 14 to the subject license on September 15, 2017, which removed the only RIII field station from Condition 10 of the license. The mailing address on the license is in Texas and all of the field locations of use are geographically located in RIV (Montana). Based on these circumstances, RIII is transferring the official license file for Petrochem Inspection Services, Inc. d/b/a TÜV SÜD, Chemical Oil & Gas to RIV. We also discussed this issue, prior to transferring the license file.

Enclosed you will find the hard copies of the subject license file. In addition, the Web Based Licensing System (WBL), has been updated to reflect Region IV, as the responsible Office for all licensing and inspection activities. If you have any questions, please contact me.

A copy of this memorandum will also be sent to Isaiah Murphy, the Radiation Safety Officer at Petrochem Inspection Services, Inc. d/b/a TÜV SÜD, Chemical Oil & Gas.
