disclosure of this information would create harm to Florida Power & Light Company regarding: i) the financial implications of its long-range resource planning, such as transmission and/or pipeline needs, and; ii) its interface with state and local government agencies, and with the general public, regarding on-going discussions and proceedings involving site utilization if this information is made public prior to Florida Power & Light Company publicly announcing these plans.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 9.17 and 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains trade secrets or confidential or privileged commercial or financial information and should be withheld from public disclosure.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-3302, or by email at Araceli.Billoch@nrc.gov.

Sincerely,

/RA/
