

Thomas J. Martin
Vice President
Engineering and Construction

Public Service Electric and Gas Company 80 Park Place Newark, N.J. 07101 201/430-8316

November 6, 1979

Mr. Boyce H. Grier, Director
U.S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region 1
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Mr. Grier:

NRC IE BULLETIN NO. 79-14, SUPPLEMENT 2
REVISED RESPONSE
NO. 2 UNIT
SALEM GENERATING STATION

Pursuant to our letter of October 31, 1979 concerning the subject bulletin, and subsequent discussions with Mr. L.J. Norrholm, RNRC Inspector - Salem, PSE&G wishes to make the following amendment:

PSE&G letter dated October 31, 1979 - Revise last sentence (page 2 of attachment) to read: "The above mentioned systems will be inspected and any necessary modifications completed prior to Power Ascension Tests".

If you require additional information, we will be pleased to discuss it with you.

Very truly yours,

Thomas J. Martin
