to Facility Operating License No. DPR-70

Dear Ms. Fieut:

In accordance with the request made by you and your friend who accompanied you at the prehearing conference, I have enclosed two copies of the NRC Staff's Safety Evaluation Report and Environmental Impact Appraisal. These documents present the Staff's evaluation of the request by Public Service Electric and Gas Company to increase the capacity of the spent fuel storage pool at the Salem Nuclear Generating Station, Unit No. 1. Since I do not have your friend's address, I would appreciate you giving the second copy to her.

Sincerely,

Barry H. Smith
