GLE-2018-0019

Attn: Document Control Desk
Director Division of Security Operations
Office of Nuclear Security & Incident Response
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Docket No. 70-7016
SNM-2019

SUBJECT: (U) Request for Authorization to Operate, and Plan Approvals

Reference (1): Letter from Jacob Zimmerman (NRC) to Pat Jenny (GLE) "USNRC Approval of GLE request for Authorization to conduct a Network Refresh and 90 day Interim Approval to Operate the Classified Network", dated December 11, 2017

Reference (2): Letter from Jacob Zimmerman (NRC) to Pat Jenny (GLE), "Request for Additional Information Regarding GLE Proposal to Use Encryption for communications Outside the US", dated February 06, 2018

Reference (3): Letter from Pat Jenny (GLE) to Director Division of Security Operations (NRC), "Request for Approval of Building Modifications", dated December 4, 2017, GLE-2017-0051

GE Hitachi Global Laser Enrichment, LLC (GLE) requests the following actions based on the References noted above and discussions with the NRC:

- 1) Authorization To Operate the classified network (Ref. 1);
- 2) Approval of PCSP based on responses to RAIs (Ref. 2), and
- 3) Approval of SPPP based on name change of a room (Ref. 3).

GLE has completed the network refresh and associated assessment of the network controls. The network controls are performing as documented. NRC/DOE(AO) has performed an inspection of the network on February 21, 2018. Based on successful inspection, GLE is

NSI08

requesting continued Authorization To Operate the classified network. Attached to this letter is the updated Classified Distributive Information Network (CDIN, Enclosure 3).

During the inspection of February 21, 2018, GLE had discussions with DOE (AO) to understand the requested changes to the PCSP, GLEP-00015-R, based on GLE's request for an Encryption Device. Based on this discussion GLE resubmits the PCSP with the requested changes (Enclosure 1).

In discussions with NSIR it was requested that we submit a revision to the SPPP that removes all reference to a vault type room. This room is now a data center (Ref. 3). GLE is submitting revision 16 to the GLEP-00009-R SPPP for NRC approval (Enclosure 2).

Please contact me at (910)819-7447 or pat.jenny@ge.com if you have any questions, or would like to discuss this submittal.

Sincerely,

Pat Jenny
GLE Security/Licensing Manager
