MEMO

Docket No.: 50-311

MEMORANDUM FOR: Roger J. Mattson, Director, Division of Safety Technology
Denwood F. Ross, Jr., Director, Division of Systems Integration
Richard H. Vollmer, Director, Division of Engineering
Stephen S. Hanauer, Director, Division of Human Factors Safety

FROM: Darrell G. Eisenhut, Director, Division of Licensing

SUBJECT: PALO VERDE SYSTEM REVIEW MEETING

By memorandum dated June 10, 1980, you were requested to attend a Palo Verde System Review Meeting being held on July 9-10, 1980, in room P-110. Your attendance was requested to allow you to participate in evaluating the feasibility of adopting a systems approach to the review process.

As the first item on the agenda (9:00 AM, July 9th), representatives from Palo Verde will briefly summarize the systems review concept and answer any questions the staff may have on this concept. The remainder of the meeting will be devoted to an ac power systems review. A full agenda will be provided at a later date.

Please make arrangements to attend the initial discussions of the systems review concept. It might also be beneficial for you or selected members of your division to observe the ac power systems review for short periods of time during the subsequent two day meeting.
