Mr. Frank P. Librizzi
General Manager - Electric Production
Public Service Electric and Gas Company
80 Park Plaza - 15A
Newark, New Jersey 07101

Dear Mr. Librizzi:

SUBJECT: INTERIM SHIFT TECHNICAL ADVISORS

Your letter of September 10, 1980, forwarded copies of resumes of four individuals for whose services you have contracted with Westinghouse and General Physics Corporation. You propose to use these individuals as replacements for the PSE&G personnel now serving as Shift Technical Advisors at the Salem Generating Station, so that these PSE&G personnel can enter a training program to obtain operator licenses.

We have reviewed the resumes that you forwarded and the information contained in your letter regarding the special training they have received. We conclude that these individuals are acceptably qualified to serve as STAs during the interim period until your fully trained PSE&G STAs become available, which you estimate as December 6, 1980.

These contract individuals do not have the six months experience on site required by our criteria. However, in view of their qualifications, the short period of time during which they might actually be serving as STAs, and the need to train additional operators, we are willing to waive the requirement for six months experience at the site.

Accordingly, your request for waiver of the experience requirement is approved. These contract individuals may be used on an interim basis to satisfy the STA requirement for the Salem Station.

Sincerely,

157
Frank J. Miraglia, Acting Chief
Licensing Branch No. 3
Division of Licensing
