RE: License Renewal 21-32665-01 – Macomb Physicians Group

I am confirming as Radiation Safety Officer of the site, that the hot lab has an under cabinet storage with a bicycle lock on the cabinet to prevent theft. The lock goes between the two cabinet doors and is locked when not in use with the tech in the room. The recent NRC inspector – Zahid Sulaiman did see this lock in place during his 2/1/2018 visit.

If you have any questions I can easily provide this to you by contacting me the site physicist Laura T. Smith, MS, DABR at [lsphysics@att.net](mailto:lsphysics@att.net) or fax 586 716 0577, text 586 808 3058.

Sincerely,

Laura T. Smith, MS, DABR  
Site Radiation Safety Officer

Good Morning,

Please add the attached to ADAMS for CN 601576.

Thank you,  
Daniel

Daniel,  
I did not hear back from the nuclear technologist until today, I now have the letterhead and this is the letter. Please let me know if there is anything else you need.

Please confirm you have this.

Thank you,

Laura Smith
