Newark, New Jersey 07101

Gentlemen:

This refers to the meeting held at the NRC Region I Office on December 10, 1980, at your request. This meeting was related to activities authorized by NRC License Nos. DPR-70, CPPR-53, CPPR-354, and CPPR-355.

The subject discussed at this meeting is included in the Office of Inspection and Enforcement Meeting Summary which is enclosed with this letter.

It is our opinion that this meeting was beneficial and provided additional information concerning your recent management reorganization.

In accordance with Section 2.790 of NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed summary will be placed in the NRC's Public Document Room.

No reply to this letter is required; however, should you have any questions concerning this matter we will be pleased to discuss them with you.

Sincerely,

Robert T. Carlson, Chief
Reactor Construction and Engineering
Support Branch

Subject: Recent Licensee Management Reorganization

SUMMARY OF MEETING WITH PSE&G ON DECEMBER 10, 1980

On December 10, 1980, representatives of Public Service Electric and Gas Company met with NRC Region I personnel at King of Prussia, Pennsylvania to introduce new PSE&G management personnel and to discuss a recent PSE&G management reorganization. The attendance list is attached as Appendix A to this Summary. The meeting was held at PSE&G's request.

The meeting commenced with introductions of attendees by R. T. Carlson, Chief, RC&ES Branch, NRC Region I, and R. M. Eckert, Senior Vice President - Energy Supply and Engineering, PSE&G. Mr. R. Eckert distributed copies of PSE&G management organization charts which reflected the recent personnel and organizational changes. Further discussion by PSE&G involved a review of the organization followed by a brief description of the function of each individual and a description of the changes and reasons for the changes.

NRC personnel asked several questions to clarify the impact of the changes. In particular, it was noted that the PSE&G Quality Assurance department is now managed by a general manager who reports to a senior vice president, whereas, previously the QA department was headed by a manager who reported to a vice president level.

The Director of Region I briefly described the NRC Office of Inspection and Enforcement reorganization.

J.C. Matthe for

W. H. Bateman
Senior Resident Inspector
