Director of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
7920 Norfolk Avenue
Bethesda, MD 20014

Attention: Mr. Steven Varga, Chief
Operating Reactors Branch #1
Division of Operating Reactors

Gentlemen:

REQUEST FOR AMENDMENT
FACILITY OPERATING LICENSES DPR-70 AND DPR-75
UNIT NOS. 1 AND 2
SALEM GENERATING STATION
DOCKET NOS. 50-272 AND 50-311

In accordance with the Atomic Energy Act of 1954, as amended and the regulations thereunder, we hereby transmit copies of our request for amendment of the Facility Operating Licenses DPR-70 for Salem Generating Station, Unit No. 1, and DPR-75 for Salem Generating Station, Unit No. 2.

This request consists of proposed changes to the Safety Technical Specifications (Appendix A) pertaining to the Containment Purge and Containment Pressure/Vacuum Relief Systems.

Since this change involves a single safety issue for each unit, and is deemed not to involve a significant hazards consideration, this amendment is determined to be Class III for Unit No. 1 and Class I for Unit No. 2, as defined by 10CFR 170.11. A check for \$4,400 is enclosed.

Very truly yours,

A handwritten signature in dark ink, appearing to read "R. A. Uderitz".
