Public Service Electric and Gas Company  
ATTN: Mr. Richard A. Uderitz  
Vice President - Nuclear  
P.O. Box 236  
Hancock's Bridge, New Jersey 08038

Gentlemen:

Subject: Updated Salem Restart Status Report - March 29, 1983

Enclosed is a copy of the subject report which was prepared by the NRC staff in response to the events of February 22 and 25, 1983. The events involved failure of the Unit 1 reactor trip circuit breakers to trip upon receipt of an automatic trip signal from the reactor protection system. The updated report contains staff evaluations and the status of resolution on the various issues associated with these events. This report was forwarded to the Commission for information on this date.

This will also confirm our meeting to be held on March 30, 1983 in the NRC Region I office to review the extent of your progress on the outstanding actions.

Thank you for your cooperation in this matter.

Sincerely,

Original Signed By:
